## **Outline of Service**

This will introduce you to the services of the Troy Freight Expediting L.L.C., Freight Expeditors for Industry. We have served the Southeastern Michigan Business Community for over 40 years. We can be your competitive edge!

Troy Freight Expediting L.L.C. is a woman owned business certified with the state of Michigan.

With "**Just in time**" delivery, the way business is done today Troy Freight Expediting L.L.C. can help you meet your deadlines. We offer customized delivery services to fit your needs, from prototypes to production parts to parts to repair your equipment. We can be faster than charter air freight within about a 200 mile radius when you consider the time it takes to arrange for a plane, get the parts to the plane, take off and landing delays, and then get the parts to the destination.

With same day door to door delivery of your "hot" freight, your parts stay on the same truck until delivered, never lost or damaged in a warehouse.

Our equipment consists of pickup trucks, vans, with a 4' X 8' cargo space, small stake that can accommodate up to #6500 in a 8.5' X 11.5' area, and a Ford Transit with a 54" x 13' area. Our drivers are all owner operators. Safe, on time delivery of your freight is their priority.

Our rates begin at \$50.00 base charge for up to 15 miles, and a per mile charge after that. The Fuel surcharge varies week to week.

Please call Virginia, at 248-879-6511 or 879-6110 and ask how our service can best benefit your company.
